Davis, CA | +1 (530)-979-6965 | hrahman@ucdavis.edu | [linkedin.com/haseebshaik00](https://www.linkedin.com/haseebshaik00) | github.com/haseebshaik00

EDUCATION

University of California, Davis

Master of Science, Computer Science – GPA: 3.9/4.0

Sep 2024 – Jun 2026

Davis, CA

Vellore Institute of Technology

Bachelor of Technology, Computer Science – CGPA: 9.34/10.0

Jul 2018 – Jun 2022

Vellore, India

PROFESSIONAL EXPERIENCE

Software Engineer

Jul 2022 – Sep 2024

UBS | **Tech Stack:** ReactJS, JavaScript, TypeScript, SpringBoot, JEST, JUnit, SQL, Azure, Docker, and Kubernetes

Pune, India

- Orchestrated the redesign and delivery of **200+ intuitive UI wireframes** using **ReactJS** and **TypeScript**, streamlining user interaction with the technical infrastructure and reducing workflow submission time by **4.5 seconds** and clicks required from **15 to under 10**
- Partnered with stakeholders to re-engineer **550+ business processes** using **SpringBoot**, achieving a **60% improvement in turnaround time** and **reducing operational costs by 80%** through vendor consolidation and migration to **Azure Cloud**
- Architected **42+ integration interfaces** to power Global Wealth Management's next-gen platform capabilities and streamline client servicing workflows, supporting over **\$300M in revenue generation** for **FY'22-'24**
- Led end-to-end workflow operations and **reduced the defect ratio by 95%** across **40+ System Integration Testing (SIT)** cycles, ensuring platform reliability and production environment stability

Software Engineer Intern

Jan 2022 – Jun 2022

UBS | **Tech Stack:** SpringBoot, ReactJS, TypeScript, Material UI, JEST, JUnit, SQL, Azure, Docker, and Kubernetes

Pune, India

- Re-engineered the Smart Liquidity Project (SLP) using **multi-tiered microservices** to enhance functionality and reliability; proactively troubleshooting issues to **reduce the defect ratio by 0.4** and **improve code quality by 92%** through **JUnit** and **JEST**
- Engineered **25+ modular UI components** in **ReactJS** and **TypeScript** by extending Broadridge's UI framework, boosting developer productivity and **saving 500+ engineering hours** across cross-functional teams
- Orchestrated **6 major CI/CD-compliant production releases** via UBS's in-house deployment tool, leveraging **Docker** and **Kubernetes** for containerized deployments, and managed production hotfixes across **12+ Agile sprints**

Software Engineer Intern

Dec 2020 – Feb 2021

PitchKrafts | **Tech Stack:** ReactJS, Bootstrap, Figma, NodeJS, ExpressJS, MongoDB, and Firebase

Hyderabad, India

- Managed **end-to-end development and deployment**: API creation, integration testing, and production rollout of the firm's website to help startup founders create investor-ready pitch decks, resulting in a **30% increase in client base**
- Collaborated with UX designers to create and develop **5+ responsive UI wireframes** using **Figma** and **ReactJS**, aligned with brand guidelines and refined through iterative user feedback, **boosting client engagement by 20%**
- Enhanced **Search Engine Optimization (SEO)** through strategic keyword targeting, driving a **25% increase in organic traffic**

PROJECTS

FinSight: Finance Management Platform

[GitHub](#)

- Developed a **MERN Stack** application with **FastAPI** for smart fund tracking, **D3.js-based** financial visualizations, and investment planning; **used by 500+ users** to monitor expenses, forecast savings, and generate investment strategies based on risk profiles
- Automated investment plan generation by acquiring multi-asset-class data, forecasting returns, and selecting top assets via Attention-based LSTM, and applying Markowitz optimization, **boosting Sharpe ratio by 18%** and **improving decision accuracy to 64%**

EventFlare: Connect Through Events

[GitHub](#)

- Developed a full-stack event engagement platform using **ReactJS (TypeScript)**, **NodeJS (ExpressJS)**, **FastAPI**, **GraphQL (Apollo)**, and **PostgreSQL (Prisma)**, enabling users to create, explore, connect, and engage in events worldwide; **currently used by 5+ organizations**
- Integrated real-time WebSocket-based chat using **Socket.IO**, QR-enabled live polling, calendar synchronization, geolocation-based event discovery, and an AI-powered recommendation engine, **achieving 82% relevance accuracy in event suggestions**

TECHNICAL SKILLS

Programming Languages: C/C++, Java, Python, JavaScript, TypeScript, HTML5, CSS3 (Bootstrap, Tailwind CSS, Material UI)

Frameworks and Libraries: ReactJS, NodeJS, ExpressJS, SpringBoot, FastAPI, GraphQL, RTL, JEST, JUnit, and Selenium

Databases and Data Tools: SQL, MySQL, PostgreSQL, SQLite, NoSQL, MongoDB, Access, Alteryx, and Power BI

Development Tools and Services: REST APIs, GIT, CI/CD, JIRA, Vite, Postman, Kafka, Docker, Kubernetes, Azure, and AWS

AWARDS & ACHIEVEMENTS

- Ranked 5th in UBS Hackathon 2023** for developing a Log Analyzer that detects DB patch failures during SEV-3 incidents
- Awarded **CDIO Champion 2022** and **Silver Volunteer 2022** titles for **Team JOSH** and **CSR** initiatives at **UBS, India**
- Earned the **Certified Engineer** title and **4 Spotlight Recognition Awards** in 2 years for embodying UBS's core values
